MISSION STATEMENT

The Gold Coast Woodturners, a chapter of the American Association of Woodturners, was formed in 1992 to promote an awareness of the craft and art of modern-day turning. Each meeting is designed and organized to present woodturning-related programs and projects to the members. Demonstrations are also presented that may be performed by a GCWT member or a world-recognized guest turner. No matter what is scheduled for the next meeting, the results will be the same. Woodturners will gather to share their experiences as well as learn from the experiences of others. All benefit, novices and "old-timers" alike. Beginners learn techniques and styles while the experts reaffirm their skills by demonstrating and teaching.

Gold Coast Woodturner membership benefits include:

- Participation in all GCWT-sponsored activities and demonstrations.
- Weekend workshops to learn new techniques.
- Wood source opportunities through raffles and auctions.
- Tool and supply discounts available from local and national retailers.
- Videotape library.
- Tools and accessories available for loan.
- To support the AAW, the national woodturners organization we encourage our membership to join the AAW and receive the American Woodturner Magazine.

PRESIDENT'S MESSAGE

Rick Pixley, July, 2005

Sorry for all the confusion at the last meeting, or lack thereof. The folks at Constantine's actually forgot the meeting date and did not leave an opening for us. Let's hope this doesn't happen again. I for one will be calling them on the date of the meeting to furnish a reminder. I hope all have had a happy 4th and was able to share it with loved ones. Because of the missed meeting all the scheduled demos will be back one more month with Gerhard doing the first one. Thanks to Jerry for doing the scheduling of these talented folks and them for taking the initiative and time to share their ideas and skills with the rest of us. I'm looking forward to learning something at each and every meeting to come.

While on the subject of learning and training, I had one member disclose some disturbing thoughts to me. This person felt uncomfortable calling on the mentors for any help, and I guess needs a more personal invitation. Well, for the record I'm formally giving this invitation to all who would like to take advantage of this wonderful program, speaking for all the folks that have volunteered their services and have club lathes at their disposal for these training sessions. Don't feel intimidated to ask, as this is our way of giving something back to the art form. I still remember the day I spent with a previous member, Peter Aiken, testing his patience and becoming forever hooked on this wonderful hobby. Prior to this session I was an avid woodworker of journeyman skill, and now it's a stretch to get me to turn on the table saw. It is much easier to schedule a session with a mentor than to get mentors and the necessary equipment together, and students for a workshop. We need to take better advantage of the mentor program. Pls. see the list at the end of the text and I'll see all at the next meeting.

Rick
